Dear Mr Foster,

RE: URGENT OPPORTUNITY TO ACCOMMODATE UKRAINIAN REFUGEES

I write with an urgent offer of support for some of those tragically caught up in the Russian invasion of Ukraine.

I am the CEO of Healthcare Management Solutions, which provides management support to elderly care companies. One such company, Sussex Healthcare, has several large, empty facilities in East Sussex. Between them they offer around 150 bedrooms. I am writing to make these available, at cost, to the Home Office for temporary use by those fleeing the conflict.

In common with the Western world, at Healthcare Management Solutions, we have been shocked and appalled by the scenes we have witnessed in Eastern Europe. We would like to offer this small gesture by way of demonstrating our solidarity with Ukraine and in support of HMG's commitment to those seeking refuge.

Please do not hesitate to contact me, or pass my details to officials, to facilitate further discussion.

Yours sincerely,

Tony Stein

CEO, Healthcare Management Solutions
